PROJECT EXPERIENCE

Website Development for Local Running Club

Project Management Course

Led a team of 5 to develop a fully functional website for a local running club in Athens. Maintained continuous communication with the sponsor to ensure alignment with project goals, deadlines, and design feedback. Coordinated team tasks, provided updates, and ensured timely delivery.

UGA Grading Process Improvement

Business Process Management Course

Analyzed the grading process at UGA by mapping out the "as-is" process and then creating a "to-be" model with several key improvements. The new process incorporated enhancements to reduce redundancies and improve efficiency in grading and test administration. Presented the findings to peers, highlighting the benefits to both faculty workflow and the overall student experience.

Project Manager, Communication and Organization Project

Business Communication Course

Managed a student team for a communication and organization project, overseeing deadlines, delegating tasks, and ensuring effective collaboration. Coordinated with committee chairs to address issues, provided evaluations, and communicated key milestones, ensuring the timely completion of all deliverables.

Project Manager, New Venture Simulation: The Food Truck Challenge

Business Management Course

Led a team through the Harvard Business Review's "Food Truck Challenge," a simulation of running a virtual food truck business. Guided the team in making strategic decisions to maximize revenue, while learning the tradeoffs and challenges of running a new business. Facilitated learning by doing and helped the team navigate entrepreneurial challenges.
